Spring Jaunts ~ Paint Tuscany

On May 6, 2016, our trusty group of potential artists meet in Florence. Under the guidance and direction of artist Sarah Hansen, well-known water colorist, each participant will learn the techniques for creating a memorable travel journal.

Paint Tuscany invites every participant to create a personal travel journal filled with words and emotions through art. Each lovely rendition will represent moments caught in the mind's eye and then transferred to paper. From our villa location we travel to bucolic locations and small towns which will inspire each traveler for that day's lesson. Sarah will guide us how to create a watercolor that expresses our experiences. From Tuscany we can take our skills to our next adventure.

Paint Tuscany will return in 2017. All creative spirits invited. No art background necessary.
